ABOUT ALBERTA HEALTH SERVICES

Alberta Health Services (AHS) is Canada's first and largest province-wide, fully-integrated health system, responsible for delivering health services to over four million people living in Alberta, as well as to some residents of Saskatchewan, B.C. and the Northwest Territories.

With over 108,600 direct AHS employees (excluding Covenant Health staff and other contracted service providers) and over 12,500 staff working in AHS' wholly-owned subsidiaries such as Carewest, CapitalCare Group and Alberta Precision Laboratories, we are also supported by over 12,200 volunteers and almost 10,900 physicians practicing in Alberta, more than 9,000 of whom are members of the AHS medical staff (physicians, dentists, podiatrists, oral and maxillofacial surgeons).

Programs and services are offered at over 650 AHS facilities throughout the province including 106 acute care hospitals, five stand-alone psychiatric facilities, 8,513 acute care beds, 27,973 continuing care beds/spaces and 257 community palliative and hospice beds, 2,840 addiction and mental health beds plus equity partnership in 40 primary care networks.

VISION

Healthy Albertans.
Healthy Communities.
Together.

MISSION

To provide a patient-focused, quality health system that is accessible and sustainable for all Albertans.

VALUES

compassion
accountability
respect
excellence
safety

Job Description

The Perfusionist I is a leader and pivotal member of the inter-professional team working collaboratively to achieve the best patient outcomes through a team-based approach. The Foothills Medical Centre Cardiac Surgery program performs approximately 1650 surgeries per year and the Perfusionist I also supports both adult and pediatric ECLS programs in Calgary for Southern Alberta. Relocation assistance up to \$8000.

As a Cardiovascular Perfusionist I, you are responsible for the safe and efficient preparation for and management of cardiopulmonary bypass and related cardiopulmonary support modalities for adult, pediatric and infant patients. You will work in consultation with attending physicians and will administer various anaesthetic and medical gases, other related pharmaceuticals, blood and blood products and various crystalloid solutions.

Required Qualifications

- Completion of an accredited Cardiovascular Perfusion training program.
- Active or eligible for registration with Canadian Society of Clinical Perfusion (CSCP).
- Current Basic Cardiac Life Support—Health Care Providers (BCLS-HCP).
