About Barwon Health

Guided by our values, Barwon Health is Victoria's largest regional health care service and is also the largest employer in the Geelong and surf coast region, employing over 8700 staff. Barwon Health's core facilities include the renowned [University Hospital Geelong precinct](#) in central Geelong, the [McKellar Centre precinct](#) in North Geelong, the [innovative Sunrise Centre](#), [Barwon Health North](#) a vital services that includes child and family health support, renal dialysis, medical imaging, and urgent care. Four [Aged care centres](#) spanning the Region, [Mental Health Services](#) that are delivered through a number of programs across the Geelong and Barwon South West region. [Community Health and Dental service](#) and world renowned [Research](#) that advances health and wellbeing for all. [Explore all of our comprehensive services here.](#)

About the Facility

The cardiothoracic unit performs a wide range of complex cardiothoracic surgical procedures including bypass grafts, valve repair/replacement, minimally invasive cardiac surgery and aortic procedures. University Hospital Geelong is one of only two Tier 2 ECMO services in the state managing VA, VV and eCPR patients.

The perfusion unit is about to transition to 2 state-of-the-art Liva Nova Essenz Heart Lung Machines.

About the role

Take on the vital role of overseeing the setup and functionality of the heart-lung bypass machine, along with managing related equipment, during cardiothoracic surgeries and within intensive care settings. Offer perfusion expertise across a diverse range of surgical procedures, encompassing minimally invasive cardiac surgery.

Collaborate seamlessly within a multidisciplinary team, contributing to the delivery of advanced ECMO care at a heightened level, including VA, VV, and eCPR modalities, as an integral part of a comprehensive state-wide ECMO service. Contribute to the expansion of a thriving cardiac surgical unit as it continues to grow and evolve.
