Are you passionate about advancing the field of perfusion while providing exceptional patient care? Join Kingston Health Sciences Centre (KHSC), southeastern Ontario's leading teaching, research, and specialty care hospital. With a commitment to excellence, innovation, and compassionate care, KHSC is the perfect environment for a Perfusionist to thrive.

Why KHSC?

Cutting-Edge Practice

- Be part of a dynamic team performing approximately **650 cardiac bypass surgeries annually**, including complex aortic, multi-valve, and minimally invasive procedures.
- Prepare for the future of **cardiac robotic surgery** with advanced training opportunities.

Collaborative Environment

- Work within a highly respected and cohesive team with **90+ years of collective experience**—an ideal setting for new graduates to develop their skills in a safe and supportive environment.
- Benefit from mentorship and collaborative problem-solving to deliver outstanding patient care.

Advanced Technology

- Operate state-of-the-art **Quantum HLMS** and leverage an advanced patient management system that ensures safe, informed perfusion practices.
- Utilize cutting-edge tools for **thromboelastometry**, ECMO, cell salvage, MHP, and **IABP insertions and troubleshooting**.

Comprehensive Skill Development

- Gain hands-on experience in a wide array of perfusion-related skills, with ongoing opportunities for professional growth and education.

Flexible Scheduling

- Enjoy a work-life balance with flexible scheduling and a team-oriented atmosphere that supports your personal and professional needs.

Continuous Learning & Research

- Participate in **education, research, and quality improvement initiatives** to stay at the forefront of perfusion science.
- Pursue **independent research projects** with support from the **Kingston General Hospital Research Institute (KGHRI)**, including assistance with ethics approvals and data collection.

Mentorship and Training

- Mentor future perfusionists, lead team simulations, and conduct **nursing ECMO/IABP in-servicing** annually to strengthen interdisciplinary collaboration.

Your Role

As a Perfusionist at KHSC, you will:

- Operate and maintain critical perfusion equipment during cardiac surgeries.
- Collaborate with a multidisciplinary team to deliver exceptional patient outcomes.
- Contribute to teaching and research efforts within a leading academic hospital.

Qualifications

- Certification from an accredited perfusion program and eligibility for licensure in Ontario.
- Technical proficiency, attention to detail, and a dedication to continuous learning.
