Grow With Us and Create Impact Across B.C.

## Pediatric Perfusionist

BC Children's Hospital | Vancouver, British Columbia

*From April 1, 2024 to March 31, 2025, this position may qualify for a one-time recruitment incentive up to \$15,000 (subject to funding availability). To learn more about this incentive, and role, and if you qualify, please ask your Talent Acquisition Advisor at [brianne.mckaughan@phsa.ca](mailto:brianne.mckaughan@phsa.ca)! Sponsorship, immigration support, and relocation assistance available.*

Join a global leader in pediatric care, research, and teaching. Advance your career with cutting-edge technology while making a difference for children and families.

Bring your skills to a progressive and supportive centre of pediatric health care excellence at BC Children's Hospital and provide critical care for children across British Columbia. You'll join a team that fosters mutual respect, continuous learning, and professional support, and will experience complex work challenges that provide a deep sense of personal fulfillment.

### Why BC Children's Hospital?

As the only dedicated pediatric hospital in British Columbia, this health care campus supports families from across the province, with the most complex health needs. Working as part of the collaborative inter-disciplinary team, you'll have the chance to contribute to cutting-edge medical practices, research initiatives, and innovative technologies specific to pediatric care, which are rarely encountered in adult perfusion roles.

Beyond the core responsibilities of cardiopulmonary bypass, you will engage in exciting opportunities such as supporting advanced extracorporeal therapies, including ECMO (Extracorporeal Membrane Oxygenation), VAD (Ventricular Assist Devices), and innovative perfusion techniques tailored to pediatric patients. You'll also participate in simulation-based training programs designed to enhance critical decision-making skills, and there's potential to contribute to groundbreaking clinical research projects focused on pediatric cardiac care.

### What You'll Do

Pediatric Perfusionists are members of BC Children's Hospital's pediatric cardiac perioperative and pediatric critical care teams. This role cares for pediatric patients requiring specialized pediatric/neonatal cardiac bypass or extra corporeal life support. This includes, but is not limited to, the use of specialized pediatric/neonatal equipment, supplies, and techniques that are unique to the care of the pediatric/neonatal patient requiring life supporting cardiac or respiratory support.

### What You Bring

- Graduation from an accredited perfusion program.
- Willingness to complete our 12-month pediatric/neonatal training pathway.
- Strong communication and technical skills.
- Open to international candidates—CSCP certification is a plus but not required!

**Job Type:** Regular, Full-Time

**Wage:** \$62.13 - \$68.10 per hour

**Location:** 4500 Oak Street, Vancouver, BC, V6H 2N9

**Hours of Work:** Monday – Friday; 0700-1500

**Requisition #** 179297E
