

DECLARATION STATEMENT

The Declaration Statement, outlined below, helps ensure that correct procedures have been followed when performing studies, collecting data, and presenting. If there are any questions pertaining to this Statement, please contact the National Office.

The Declaration is made by the Guarantor Author when submitting the manuscript through the Society's website.

Individuals claiming authorship must have:

- The capability to take full ownership of the material;
- Contributed sufficiently to conception, design, acquisition of data, analysis and interpretation of data;
- Critically drafted or revised the manuscript;
- Given final approval prior to manuscript submission.

Acquisition of funding, collection of data, general supervision of the research group, alone, does not justify authorship. Ghost authoring is not permitted.

Manuscripts accepted for publication become the property of the Canadian Society of Clinical Perfusion, and may be published in any form or medium, whether now known or hereafter developed.

All authors attest that *All* of the following conditions have been met.

1. *If required, approval was obtained from the Human Investigations Committee, Research Ethics Board, or Animal Care Committee.*
2. *If required, patient consent was obtained for any personal information appearing in Case Reports/Series in accordance with local institutional guidelines.*
3. *All funding sources have been disclosed, and any commercial or non-commercial affiliations or associations such as consultancies that may or may not be perceived as a conflict of interest are disclosed within the manuscript.*

It is the Guarantor Author's responsibility to obtain and maintain all required documents for a period of five years.

The Canadian Society of Clinical Perfusion, the editor, or the meeting coordinator, all reserve the right to ascertain the contributions of the authors listed, and/or request proof of approval from the respective local research board or committees.
